Notes

New Setting - Schedule date type
============================
A new setting has been added to the Trading Partner Details masterfile to enable configuration of the Accurate Advance Ship Notice's SCHEDULE DATE field.

Maintenance Files -> Trading Partner Details -> More Details -> Schedule date type

Prior to this change the schedule date field was always populated with the estimated delivery date, calculated by adding the transporter's transit hours to the consignment date.

The following options are now available in the Schedule date type setting:

Options

a) Order: Not before date
b) Order: Not after date
c) Consignment: Not before date
d) Consignment: Not after date
e) Consignment: Preferred book-in date
f) Consignment: Book-in date
g) Consignment: Date + transit hours

Option descriptions

a) The order's not before date
b) The order's not after date
c) The consignment's not before date
d) The consignment's not after date
e) The consignment's preferred book-in date
f) The consignment's book-in date date
g) The estimated delivery date based on transporter transit hours

Notes

Options c through f are fields that can be manually adjusted/entered by the user.
