#### Notes

New Cycle Count Application

The iSupply Cycle Count application has had a complete overhaul. For details on how to operate, please use the iSupply help, Contents tab to navigate to: Pick, Pack & Stock Management --> Cycle Count tab --> Cycle Count Overview

RF KPI Report

The RF KPI Report that was located under the Pick, Pack & Stock Management -> RF Task menu has been removed. This has been replaced with the interactive RF Performance report.

Please note, all analytical reports will be gradually moving to the more functional and interactive iSupply Interactive Reports module - accessed by clicking the Reports icon at the top of the menu side bar menu.

Operational reports such as order lists, pick slips, transporter manifests etc. will stay within the main iSupply menu structure.

New setting - Default customer manifest email

Maintenance Files --> Company --> Sender Details --> More Details --> Consignment Details Entry / Update / Enquiry settings --> Default customer manifest email

Holds the email address that is used whenever iSupply attempts to email a customer manifest to a Receiver whose email address is empty: Maintenance Files --> Company --> Receivers --> Email address

Typically used to notify your customer service personnel of Receivers who are not configured within an email address.

iSupply email changes

User name and password credentials can now be configured for connecting to mail servers that require user credentials for authentication.

Configuration is in the iSupply config file: iSupplyWindows.exe.config. Configure the userName and password keys.

<system.net>
<mailSettings>
 <smtp>
 <network userName="MyUser" password="MyPassword"/>
 </smtp>
 </mailSettings>
</system.net>

Transporter Invoice Import driver - Toll Express

\_\_\_\_\_\_

A driver to import Toll Express invoices has been added.

To configure, set yourToll Express transporters Invoice import to TXP840P: Maintenance Files -->

Transporter Details --> More Details --> Transporter Settling --> Invoice Import

To find out more about transporter invoice reconciliation, please contact us on 02 4344 1149 or support@lsi.net.au.

.....

Toll Track and Trace Subscription

A new eCS program has been added to subscribe to Toll tracking events – TXP786P.

If using the Toll track and trace subscription service, a user name and password must be configured in the iSupply config file: iSupplyWindow.exe.config. Ensure the following keys exist within <appSettings> and update with appropriate user name and password (issued by the Toll Group upon tracking subscription approval).

```
<add key="TXP786PUsername" value="MyUser" /> <add key="TXP786PPassword" value="MyPassword" />
```

For further information on how to configure, please contact us on 02 4344 1149 or support@lsi.net.au.

New setting - Address line expansion

Maintenance Files --> System --> Create / Modify User Accounts --> Address line expansion

Controls the default display of the Consignment Details Entry / Update / Enquiry program.

Expanded - address lines 3 and 4 are shown by default Collapsed - address lines 3 and 4 are hidden by default

Note: vertical screen resolutions less than ~800 are better suited to the collapsed view
